

MMHCC Newsletter November 2004

MouseLine

Looking for an easy way to stay informed about NIH's funding opportunities? Go to the NIH Guide for Grants and Contracts' website:

http://grants1.nih.gov/grants/guide/notice-files/index.html#2005

The site is organized by the "year" of the receipt date. For example, an announcement released in August 2004 with a February 1, 2005 receipt date, would be located in the 2005 section. The site has a Search Engine, powered by Google, which facilitates finding the research area of interest.

Each week (usually Friday afternoon), NIH transmits an email with the Table of Contents (TOC) information for that week's issue of the NIH Guide, via the NIH LISTSERV. To subscribe to the NIH Guide LISTSERV, send an email to listserv@list.nih.gov with the following text in the "Message Body" (not the "Subject line"): subscribe NIHTOC-L your name (example: subscribe NIHTOC-L Joe Smith). Your email address will be automatically obtained from the email message and will add you to the LISTSERV.

Selected Meetings

November 8 - 9, 2004 Meeting on Pre-Cancers

George Washington University, Washington, D.C.

Organizers: Jules Berman, Jerry Ward, Don Henson, Cheryl Marks

Contact: Cheryl Marks: marksc@mail.nih.gov

December 1 - 5, 2004

Cell Cycle and Cancer: Pathways and Therapies

Fort Lauderdale, Florida

Meeting information: http://www.aacr.org/2004cellcycle.asp

December 2 - 3, 2004

Pancreatic Models - Pathology Consensus Meeting

Philadelphia, Pennsylvania

Organizers: David Tuveson, Ralph Hruban, Andy Lowy, Anna Means

Contact: Cheryl Marks: marksc@mail.nih.gov

For more meetings and meeting information see http://emice.nci.nih.gov/emice/communication/calendar/index.html

Funding Opportunities

Axonal Damage in Multiple Sclerosis: Strategies for Protection and Repair

Repository News

The MMHCC Mouse Repository is an NCI-supported resource for the distribution of mouse cancer models and associated strains. The Repository makes strains available to all members of the scientific community. Up to 3 breeder pairs of each available strain may be ordered.

Newly accepted strains

The following strain has recently been accepted into the MMHCC Repository and is available for distribution (please click on the specific link, below, for additional information):

1. p19(Arf) null (FVB) [FVB.129-Cdkn2a tm1Nesh] http://mouse.ncifcrf.gov/available_details.asp?ID=01XJ2

More information can be found on the Mouse Repository's website: http://mouse.ncifcrf.gov
